

INNOVATION IN BURN CARE

Date: 19th January 2023

A hybrid mode event (Both in-person & online) event was organized by CMIE in collaboration with Department of Plastic, Reconstructive & Burns Surgery, AIIMS on 19th January 2023.

The thematic areas covered during the event were wound management, critical care and rehabilitation. The event was attended by 21 individual innovators, start-ups and aspiring entrepreneurs with the take away of the event being:

- a. One-on-One interaction with the experts
- b. Expert advice on developed technologies
- c. Support on regulatory aspects
- d. A possible collaboration

A pitch deck of 5 participants were organized during the event wherein the experts gave their valuable inputs on the technologies developed by the innovators.
